V8 Conversion | National Chevy Association | 1949 to 1954 ...

The engines that the author refers to in his article are the 4.8, 5.3, 5.7 and 6.0 engines because they share the same platform and most parts with the actual 5.7 aluminum LS1 engines. He rarely does actual LS1 swaps because you can go to a junkyard and buy a 5.3 for anywhere between \$250-\$550 and that is complete, minus the starter, alternator, power steering, etc.

s54 engine swap - stillwatergrillokemos.com

Not after you put a s/c on an engine that wasn't designed for one! And yes, you get more grunt than an S54, but you have bastardized the engine in a way BMW never intended. Of course, they never intended for the S54 to sit in a stock E46 either, but at least it's still a "pure BMW" engine, and one of the most magnificent engines ever made.
