Counting is the process
of determining the
number of elements of
a finite set of objects.

The traditional way of
counting consists of
continually increasing
a (mental or spoken)
counter by a unit for
every element of the
set, in some order,
while marking (or

The first millennium started in AD 1, so the millennia are counted in this manner: Thus, the 3rd millennium and, similarly, the 21st century started on 1 Jan 2001. This is the cause of some heated debate, especially since some dictionaries and encyclopaedias say that a century starts in years that end in 00.
