### Deadly Animals In The Wild

The world's deadliest animal isn't a shark or even a human. Drawing from a graphic from Bill Gates' blog, we decided to rank the world's deadliest animals.. Most of the deaths caused by animals, it turns out, have less to do with the animals themselves than the diseases they unwittingly transmit.

### These Are The Top 15 Deadliest Animals on Earth

The size of the animal has very little to do with how deadly an animal is, as some of the most deadly animals are also some of the smallest. It is worth noting that if all animals were included in this list, not just wild animals, that humans would rank in the second position.
