## **Knowledge, Information, and Expectations in Modern ...**

Knowledge consists of facts, truths, and beliefs, perspectives and concepts, judgments and expectations, methodologies and know-how. Knowledge is accumulated and integrated and held over time to handle specific situations and challenges. Information consists of facts and data organized to describe a particular situation or condition. We use knowledge to determine what a specific situation means.

## **What is the difference between Knowledge and Information?**

Women had expectations of the examination that could not, because of technological limitations, have been met by the examination, but which they perceived to have been met. Knowledge of the purpose, capabilities and limitations of the routine second trimester ultrasound scan was not influenced by the mode of information provision.

## **Information, knowledge and expectations of the routine ...**

Knowledge. Firstly, let's look at Knowledge. Knowledge is what we know. Think of this as the map of the World we build inside our brains. Like a physical map, it helps us know where things are - but it contains more than that. It also contains our beliefs and expectations. "If I do this, I will probably get that."

## **The Differences Between Data, Information and Knowledge ...**

Knowledge of human behavior: Students should identify and demonstrate an understanding of human behavior within the context of various social, developmental, global, economic, political, biological and/or environmental systems. These studies should cover theory, historical and developmental perspectives.
