Cub Cadet 2146 w/ Linamar 14hp single cylinder. Huge engine for just being a 14hp single, hopefully a sign of it's prolonged durability and longevity. Anyway, it is an OHV engine with mechanical flat tappets. Valve adjustment is made via set screw and jam nut on the rocker arm, and must be checked regularly.

Onan Parts at Jack's - Jacks Small Engines

Just got the Linamar LX790 in my 318 to try it out. Supposed to have less than 100 hours on it. Compression is good at 120-130. Currently it needs a little bit a choke to let it run nice. Figure I need to add more fuel. This carb looks a little bit different than what I am used to on the B43G engine. Does anyone know what this contraption is?
