### Massage Therapy Research Paper

Research. Advancing the massage therapy profession through research. Humans instinctively value the healing power of touch, and modern massage therapy comes from a long and venerable tradition reaching through time and across cultural boundaries. Rigorous research about massage can challenge tradition, but it strengthens our profession, and provides guidance for massage therapists to be as effective as possible.

### Research - Massage Therapy Foundation

The thesis of this paper is that massage therapy has proven that it rids the body of physical discomforts and also improves a person's mental capacity without the use of prescription drugs. Massage therapy is an ancient form of treatment that dates way back early days of civilization.

Massage Therapeutic Evidence. The term “evidence-based medicine” (EBM) first appeared in a paper in 1992. 1 In the late 1990s, EBM had emerged as the premier method of teaching and practicing medicine. EBM promotes the use of up-to-date “best” scientific evidence from healthcare research as the basis for making medical decisions.
