The Colors of Zion: Blacks, Jews, and Irish from 1845 to 1945. The past few decades have seen the rise of "whiteness" studies, which explore the cultural construction of white power. The studies demonstrate how anti-African-American hostility was constituted as a compact that white immigrants to the US had to sign up to if they were to be accorded the same rights as Anglo-Saxon Protestants.

Colorism didn't disappear after the institution of slavery ended in the U.S. In Black America, those with light skin received employment opportunities off-limits to darker-skinned Black Americans. This is why upper-class families in Black society were largely light-skinned. Soon, light skin and privilege were linked in the Black community.

Zion. The meaning of the human city of Zion changes throughout the Matrix trilogy. In The Matrix, the city is discussed but not seen and works mostly as a metaphor for a promised land of sorts, and a goal that makes the fighting worthwhile. The Zion in the films recalls the biblical city of Zion. In the Old Testament, Zion is Jerusalem, the heavenly city God promised to the Israelites.
