Capitalism In The Web Of

Capitalism in the Web of Life is about how the mosaic of relations that we call capitalism work through nature; and how nature works through that more limited zone capitalism. - is double movement—of capitalism through nature of nature through capitalism—is what I call the “Double Internality.”.

Capitalism in the Web of Life - Jason W. Moore

In Capitalism in the Web of Life, Jason W. Moore argues that the sources of today’s global turbulence have a common cause: capitalism as a way of organizing nature, including human nature. Drawing on environmentalist, feminist, and Marxist thought, Moore offers a groundbreaking new synthesis: capitalism as a “world-ecology” of wealth, power, and nature.

Verso

Capitalism in the Web of Life shows how the critique of capitalism-in-nature--rather than capitalism and nature--is key to understanding our predicament, and to pursuing the politics of liberation...

Jason W. Moore's Capitalism in the Web of Life: Ecology and the Accumulation of Capital (2015) offers a new perspective on capitalism and its current systemic crisis by developing an ecologically centered theory of capital accumulation. This essay first presents a concise account of Moore's theory. T

'Capitalism in the Web of Life' - A Critique

Capitalism in the Web of Life reflects two decades of reflection and study at the nexus of two great concerns: the history of capitalism and environmental history. It has been a long, productive, exciting, and often tumultuous, journey. This book’s ideas were formulated on both coasts of North America, on both sides of the Atlantic, at eight

Capitalism in the Web of Life - UNAM

Partway through Capitalism in the Web of Life, Jason W. Moore provides the imperative for a complete theoretical reworking and synthesis of Marxist, environmental, and feminist thought by asserting: “I think many of us understand intuitively – even if our analytical frames lag behind – that capitalism is more than an “economic” system, and even more than a social system.

Capitalism in the Web of Life: an Interview with Jason W ...

Capitalism is an economic system where private entities own the factors of production. The four factors are entrepreneurship, capital goods, natural resources, and labor. The owners of capital goods, natural resources, and entrepreneurship exercise control through companies.
