Presently, he speaks  
and blogs on topics in  
addiction science, and  
his critically acclaimed  
book, Memoirs of an  
Addicted Brain, is the  
first to blend memoir  
and science in  
addiction studies. His  
newly released book,  
The Biology of Desire,

scheduled for US  
release tomorrow. I've  
had the good fortune  
to read an early copy  
of the manuscript and I  
find it brilliant both for  
Dr. Lewis's ability to  
capture the cavalier  
antics of his life as an  
active addict and at  
the same time explain  
the neuroscience  
behind that cavalier  
attitude.

## Memoirs Of An Addicted Brain A Neuroscientist Examines His Former Life On Drugs

Informed by unparalleled neuroscientific insight and written with his usual flare, Marc Lewis's *The Biology of Desire* effectively refutes the medical view of addiction as a brain disease. A bracing and informative corrective to the muddle that now characterizes public and professional discourse on this topic." —Gabor Maté,
