LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

## **Metastock Programming Study Guide**

The 'MetaStock Programming Study Guide' fills those gaps left by the boring, exampleless MetaStock manual and MetaStock Formula Primer. It really is the definitive guide to MetaStock.
