## Real Analysis H. L. Royden

3.0 out of 5 stars Royden rolling in his grave. Reviewed in the United States on September 13, 2015. Verified Purchase. Unfortunately, adding Fitzpatrick to the authorship of this previously wonderful real analysis text did not benefit anyone--at least in the fourth edition, first printing. There were more errata in this text than I've ever seen ...

But changing the weather would impact the monsoons on which millions rely. And growing enough plants to bury carbon would require the same space used by agriculture. These are lose-lose scenarios that would worsen global crises. Perhaps the most dangerous element is the oxygen they waste in negotiations, diverting attention from real solutions.
