Library Genesis is a search engine for free reading material, including ebooks, articles, magazines, and more. As of this writing, Library Genesis indexes close to 3 million ebooks and 60 million articles. It would take several lifetimes to consume everything on offer here.

Scienza Mathematics Physics Chemistry Biology

Scienza contains 2 books about math, one about chemistry, two on biology, and one on cosmology. My personal favorites were "Essential Elements" by Matt Tweed and "The Compact Cosmos" by the same author. Scienza combines all 6 books and also includes an amazing collection of appendices that you cannot get if you buy each book separately.
